ABOUT THE COMMUNITY

UC Merced opened Sept. 5, 2005, as the newest campus in the University of California system and the first American research university of the 21st century. Situated near Yosemite National Park, the campus significantly expands access to the UC system for students throughout the state, with a special mission to increase college-going rates among students in the San Joaquin Valley. It also serves as a major base of advanced research, a model of sustainable design and construction, and a stimulus to economic growth and diversification throughout the region.

It currently has 3 schools: School of Engineering, School of Natural Sciences and School of Social Sciences, Humanities and Arts. 1 planned school: Earnest & Julio Gallo Management Program

As of the 2019-20 academic year, UC Merced has more than 8,800 undergraduate and graduate students making up the Bobcat community.

POPULATION

CLASSES & MAJORS

UC Merced offers 27 majors, 25 minors and 18 graduate programs taught by more than 400 full-time faculty members, visiting professors and lecturers. In addition, the graduate and undergraduate students are conducting some of the most cutting-edge research of our time, including stem cells, artificial intelligence and renewable energy.
